FORCES FIREMEN INTO POLITICS.

Herdman Compels McGreal to Do His Dirty Work. Another of the advantages of being a political police commissioner has just come

out from the talk of the firemen in No. 3

engine house. Shortly after the new Board of Fire and olice Commissioners was organized, Commissioner Herdman secured the appointment of James McGreal of the Eighth ward to a place in the fire department as a reward for his political services for the Howell-Herdman combination. Having placed Mc-Greal on the city pay roll, Mr. Herdman evidently became imbued with the idea that he could use him for political purposes at any time. McGreal happens to be a member of the democratic county committee and he therefore received orders from Herdman last week to see the other members of th committee and use his influence to organize them or the expulsion of Pat Ford and Ed Rothery. McGreal spent some time at this work to the neglect of his duties as a fireman, although not with great success.

When the committee mer last Saturday McGreat was forced to sign over his proxy as committeeman to Will Herdman, a brother of the police commissioner, all in the interest of the divorce of the fire department from politics.

New Deal for First Class Train Service to the Far West.

FOUR ROADS LIKELY TO FORM A COMBINE

Milwaukee, Rock Island, Colorado Midland and Rio Grande Western Figure on Through Car Service from Chicago.

The appearance of a new combination of western railroads is foreshadowed. If negotlations now pending between the highest traffic officials of the Chicago, Milwaukee & St. Paul and the Chicago, Rock Island & Pacific railways reach a successful termination, there will soon be a new through line for first-class passenger travel from Chicago to Salt Lake City and San Francisco. It will be via Omaha, and will include the following railroads: The Milwaukee, from Chicago to Omaha; the Rock Island, from Omaha to Colorado Springs; the Colorado Midland, from Colorado Springs to Grand Junction, and the Rio Grande Western, from Grand Junction to Salt Lake City.

Negotiations for through tourist car servce for the accommodation of second-class travel over the new combination of roads rom Chicago to Salt Lake City have been completed, and the contract for such service signed. The tourist cars will be placed in service on Wednesday, September I. But the more important feature of the negotiation—the operation of a through train of first-class sleepers, dining cars and library cars from Chicago to Salt Lake City is still under consideration. It is probable that arrangements for this service would have now been complete but for the unexpected absence of W. H. Truesdale, general manager of the Rock Island, from Chicago.

FOLLOW NORTHWESTERN'S LEAD. Ever since the Union Pacific entered into the contract with the Northwestern for through train service from Chicago to Salt Lake City other western railroads deavored to plan a way in which they might compete for through western travel on something like even terms. The short-ness of the Union Pacific route has given the Northwestern-Union Pacific ombination a prestige difficult to overcome. At the time the Union Pacific entered into the contract with the Northwestern for through train service negotiations for came service were pending between the Union Pacific and the Milwaukee. Since that date the Milwaukee has been seeking a western connection and has already given some evidence of entering into close relations with the Rock Island's line west of the

Missouri river, About a fortnight ago A. C. Bird, gen etal traffic manager; George H. Heafford, general passenger and ticket agent, and Fred A. Nash, general western agent, of the Milwaukee took an extended western trip. The object of the trip was to thoroughly study the proposed route for the new service between Chicago and Salt Lake City. The party went from here to Colorado Springs, and from there over the Colo-rado Midland and the Rio Grande Western, They succeeded in making favorable ar-rangements with the two scenic lines between Colorado Springs and Salt Lake City One of the party on his return enthus astically pronounced the scenery along the

Colorado Midland as the finest between here and the coast. ONLY PASSENGER BUSINESS. Since that trip negotiations between the Milwaukee and the Rock Island have been carried on in Chicago, where the headquar-ters of both railways are located. General Western Agent Nash of the Milwaukee re-turned from an important conference on this matter yesterday. He stated that no agreement had yet been reached because of the absence of General Manager Truesdale of the Rock Island.

Rumors of the move for a new western route have been current in railroad circles troubles. They never gripe. cessioned some talk but it was not though train service would follow. Passenger officials of both the Union Pacific and the B. & M. railroads yesterday, when asked their opinion about the rumor, stated that they doubted very seriously the making of such a compact. Officials of the lines interested, however, are quite confident that the proposed combination will be a go, and that here will be another line of first-class train service between Chicago and Salt Lake City than the Northwestern-Union Pacific combination. They declare that the new comes will prove a very formidable competitor to the old established line. If the proposed deal should be made it will not affect the freight traffic, as the Milwaukee works with

the Union Pacific on western freight busi-GREAT CROPS OUT IN NEBRASKA. Graneries of the State Are Filled to

MRS. BURKE'S SENSATIONAL EXPERIENCE

Says that While Alone in Her Home, the Place Was Visited by Two Strange Men. Intent Upon Robbery,

Mrs. Burke of 1111 South Eighth street was found in her bed Tuesday morning, drugged and unconscious. There is a mystery in the case which awalts solution, Mrs. Burke is the wife of Michael Burke, who handles the government mails at the Union depot. The couple live in a little cottage, located on the corner of the alley. Across this alley is the residence of Mrs. Mulvihill. Mrs. Mulvihill is a close friend of Mrs. Burke's, and they visit each other frequently. Tuesday morning about 7 o'clock Mrs. Mulvihill prepared to pay Mrs. Burke a visit, and, glancing out of the window toward her house, she was surprised to Hot Springs by the water spout ten days see all the curtains drawn. Fearing that ago has been all repaired. The plunge the woman had oversiept, Mrs. Mulvihill bath building, which was badly damaged by straightway hurried over to the house. She found the rear door unlocked and entered. She saw the form of Mrs. Burke lying on the bed and went to her side for the out up, and are explained by signs of awakening her. Her shaking had no effect "Omaha, Kansas City & Eastern and then she noticed a wad of cotton pressed against the nostrils and upon the mouth of the apparently sleeping woman. The cot-ton was discolored, and Mrs. Mulvihill came to the conclusion that the woman was un-

usclous. Dr. H. B. Wilson was hurriedly summoned and in a short time he brought the woman back to consciousness. He will not say what the drug was that was applied to the woman's mouth. He stated yesterday, however, that he did not believe that the woman had been unconscious more than an hour. Mrs. Burke, however, says that she was

unconscious from the effects of the drug for at least eight hours. She relates a decidedly sensational story of the manner in which it was applied. In a word, it is that a couple of burglars ellenced her in this manner in order that they might go through the house without interference, Burke works at the depot from about 2 o'clock in the afternoon to about 10 o'clock at night. Therefore he left the house without going into the bedroom. The Burkes put these two stories together o form their sensational narrative. They state that they believe that the burglars were in the bedroom at the time that the husband came home. Mrs. Burke had left the bedroom door unlocked, but the crooks locked it. They were disturbed when Burke tried the door and left the house while he was in the yard, leaving the door open behind them. They also unlocked the rear bedroom door leading to the outside, be-
